GREAT NECK, N.Y. -(NEA)-Radar for the small boat is now a reality. Even some of the larger outboards next summer will be 2

was too bulky, too heavy and too expensive for smaller craft. But now the newly announced pleasure boat radar (marketed by Triton Marine Products of Great Neck) should answer most

of these problems. This unit, a small version of big ship models, will operate on 12volt batteries, like modern outboard motors. It has a five-inch diameter scope which proved in a demonstration test that it can pick up the shore line, channel markers or other boats nearby
